Jenmon receives EOT crane order

01 March 2008

Verlinda distributor Jenmon International has received an order for overhead cranes from PSA, a container transshipment hub. The cranes will be deployed at a new equipment servicing and repair workshop built to support PSA's ongoing expansion plans at Pasir Panjang Terminal.

The Eurobloc VT wire rope hoist single girder electric overhead cranes have a handling capacity ranging between 1.5-15t. The cranes were constructed with inverter control for both cross and long travel motors.
